What People Are Saying About Pachyderm

"Pachyderm is on its way to becoming the next big data infrastructure company."

NAGRAJ KASHYAP
CORPORATE VICE PRESIDENT
MICROSOFT

"Pachyderm's ability to deliver data lineage to data scientists is a great leap towards explainable AI."

VAIBHAV KUMAR
SOFTWARE ENGINEERING
FULLSTACK DEVELOPMENT MANAGER
SHELL

"Overall, Pachyderm simply enables us to do things that we really can't do with alternatives."

DANIEL WILSON
CO-FOUNDER AND CTO
SEERAI

"The difference was an order of magnitude faster... If it took 10 hours on the old system then it would only take an hour with Pachyderm"

GEORGE BONEV, PHD
MACHINE LEARNING ENGINEER
LIVEPERSON

"Today, our workload runs in under a day due to incremental processing, thanks to Pachyderm. We were able to push out more models by training and serving them in parallel."

OLIVER WALTER
RESEARCH ENGINEER ASR
FRAUNHOFER

"Each of the clusters has a critical piece in there called Pachyderm. It is a version file system— they call it Git for data science. It also is an engine for running scalable data pipelines."

ANDREA GALLEGO
GAMMA CTO AND PRINCIPAL
BOSTON CONSULTING GROUP (BCG) / HASHICORP

"Pachyderm reduced our data processing time from seven weeks, to just seven hours"

EYAL HELDENBERG
VOICE AI PRODUCT MANAGER
LOGMEIN

"For one particular project, we were able to use Pachyderm to split up pre-processing across multiple parallel pipelines, providing a 10-12x reduction in processing time."

STEPHEN BULL
DATA SCIENCE MANAGER
ADARGA

❝ The true tipping point in our decision to use Pachyderm was its version control features for managing our data. ❞

JONATHAN FRASER
ENGINEER

❝ We needed a standardized experimentation framework, with the ability to modify scripts with different parameters and rerun experiments, and to have all our data in one place, shared across the machines. ❞

GEORGE BONEV, PHD
MACHINE LEARNING ENGINEER
LIVEPERSON

" We can now confidently make high-stakes purchases in a shorter time-frame because Pachyderm rapidly delivers our results and allows us to verify their accuracy and integrity. "

RYAN SMITH
HEAD OF DATA SCIENCE
EPONA SCIENCE

" There is no limit of how many datum transformers we can run at once because, as Pachyderm runs on Kubernetes, we can scale up to however much we want. "

MOSHE ABRAMOVITCH
